## Lost

A short, emotional and passionate duet. Beautiful and pure movement to captivate and move audiences.

**"First time I've seen a live performance of this type and was blown away by the power, grace and drama of the dance."**

## Brand New Duets - Book Now

Happy Hour, a playful and humorous male-female duet explores the theme of meeting a stranger in a crowded place. Dynamic lifts, athletic dance and split-second timing make Happy Hour a laugh-out-loud entertaining duet for all the family.

As we approach 50 years since the first moon landing, Gravity sees two performers in an evocative exploration of weightlessness and zero gravity, using breath-taking balances and extraordinary trust.

Knot sees two male dancers use extreme physicality, complex lifts and contact choreography to explore the many aspects of male relationships through physical expression. Twisting and turning, the control shifts from one to the other as they use physicality to explore their emotions.

**Motionhouse has been working with JCB diggers and dancers since 2004, developing a range of exciting shows for audiences of all ages.**

**EXO**

EXO, our latest JCB spectacle, sees two incredible performers dancing with one JCB in a breath-taking display of strength, emotion and beauty, capturing the imagination of audiences of all ages.

**Two performers, one JCB digger and one driver**

**Length: 20 minutes approximately**

Other JCB work is also available, please contact us for more information.

## Captive

Fast-paced and exciting, performers in a large cage-like structure explore themes of captivity. Thrilling and exciting.
